

Daria Artemova Front-end

I am a passionate **front-end developer**.
Also I'm interested in design, especially UX, and I'm working on improving my designer skills.

Front-end developer

Raiffeisen Bank, Moscow

since May 2021

- Developing products for managers to work with their budgets
- Being responsible for front-end improvements

Key achievements:

- My teammates and I remade an employees remuneration process interface, so it's more user friendly and understandable now
- Integrated Redux, this made our code base less complicated and confusing

Full stack developer

MTS IT, Moscow

June 2018 - May 2021

- Developing a CRM system on C# and JavaScript
- Participating in an architecture design
- Refactoring. There was a lot of legacy code

Key achievements:

- Integrated React, Redux and TypeScript (before we only used JavaScript, C# and Visual Basic...)
- Started developing a React components library
- Rewrote some of our main features using new company's process engine and its own language

SQA automation engineer

MTS IT, Moscow

June 2017 - June 2018

- Working with code and documentation, writing test cases
- Writing integration and unit autotests on C#
- Developing autotesting tools

Key achievements:

- Covered the whole code base with autotests
- Mentored a new team of SQA automation engineers
