

DARIA ARTEMOVA

FRONT-END DEVELOPER

I am a passionate front-end developer (ex back-end), especially interested in accessibility, usability and design. I am a fast learner and also very responsible and involved into process.

EXPERIENCE

.NET DEVELOPER, MTS IT, MOSCOW

06.2019 - 05.2021

Key responsibilities

- Developing a CRM system in .NET
- Dealing with a lot of legacy and complicated architecture
- Mentoring and managing younger teammates

Key achievements

- Made a React components library and an automated release pipeline based on semantic versioning rules
- Started using React, Redux and TypeScript in our team's project, made first app as an example
- Rewrote the order documents functionality using new company's process engine and its own language

AUTOMATION QA ENGINEER, MTS IT, MOSCOW

06.2017 - 06.2019

Key responsibilities

- Maintaining code quality by integration and unit autotesting
- Working with code and documentation, creating test cases, writing autotests
- Developing autotesting tools

Key achievements

- During the first year, I covered with autotests the whole system supported by my team
- Participated in the creation of the knowledge base for automation QA engineers
- Mentored a new team of automation QA engineers
